in door opening solutions

SMART, SIMPLE & GOOD LOOKING

The Norton 6300 Series Low Energy Operator offers a broad set of intelligent functions, such as latch boost, latch retraction and obstruction detection to safely secure a variety of moderate to high traffic openings. A unique design with one of the slimmest profiles available allows the 6300 to blend more seamlessly with the frame while fitting challenging applications with minimal header space. A modular design and simple controls also make for easy installation and setup.

Latch Boost

Modular Design

Slim Profile

SMART

Large set of intelligent features deliver multiple options for effective security and safety

- » Latch boost ensures door closes to secure facility
- » Occupant safety enhanced by obstruction detection, power assist, and push and go functions
- » Inputs available for security override and fire safety

SIMPLE

Modular design and simple controls make for easy installation and setup

- » Modular, four-piece design allows for one-person installation
- » Heavy-duty back plate serves as template simplifying and speeding installation
- » Unit learns door properties (approximate weight) during installation for easy programming and set-up
- » Easy to use controls simplify setup
- » USB port allows for quick software updates
- » Tools such as BILT interactive installation instructions and installation video offer step-by-step visuals for operator installation, setup and programming

GOOD LOOKING

Slim profile compliments aesthetics while offering better fit for tight spaces

- » Unique design with slim profile blends seamlessly with frame
- » Cover spans full frame for 36" doors; accommodates doors up to 48"
- » Low profile easily fits applications with minimal header space

APPLICATIONS

Moderate to high traffic openings are ideal applications for the 6300 Series Low Energy Operator. Whether an interior or exterior door, the 6300 Series is a low energy door control solution that allows facilities to meet ADA (Americans with Disabilities Act) requirements by enabling a door to be operated through the use of push buttons, wave switches or hands-free radio frequency devices.

Ideal applications include:

Corridors

- » Hospitals
- » Universities

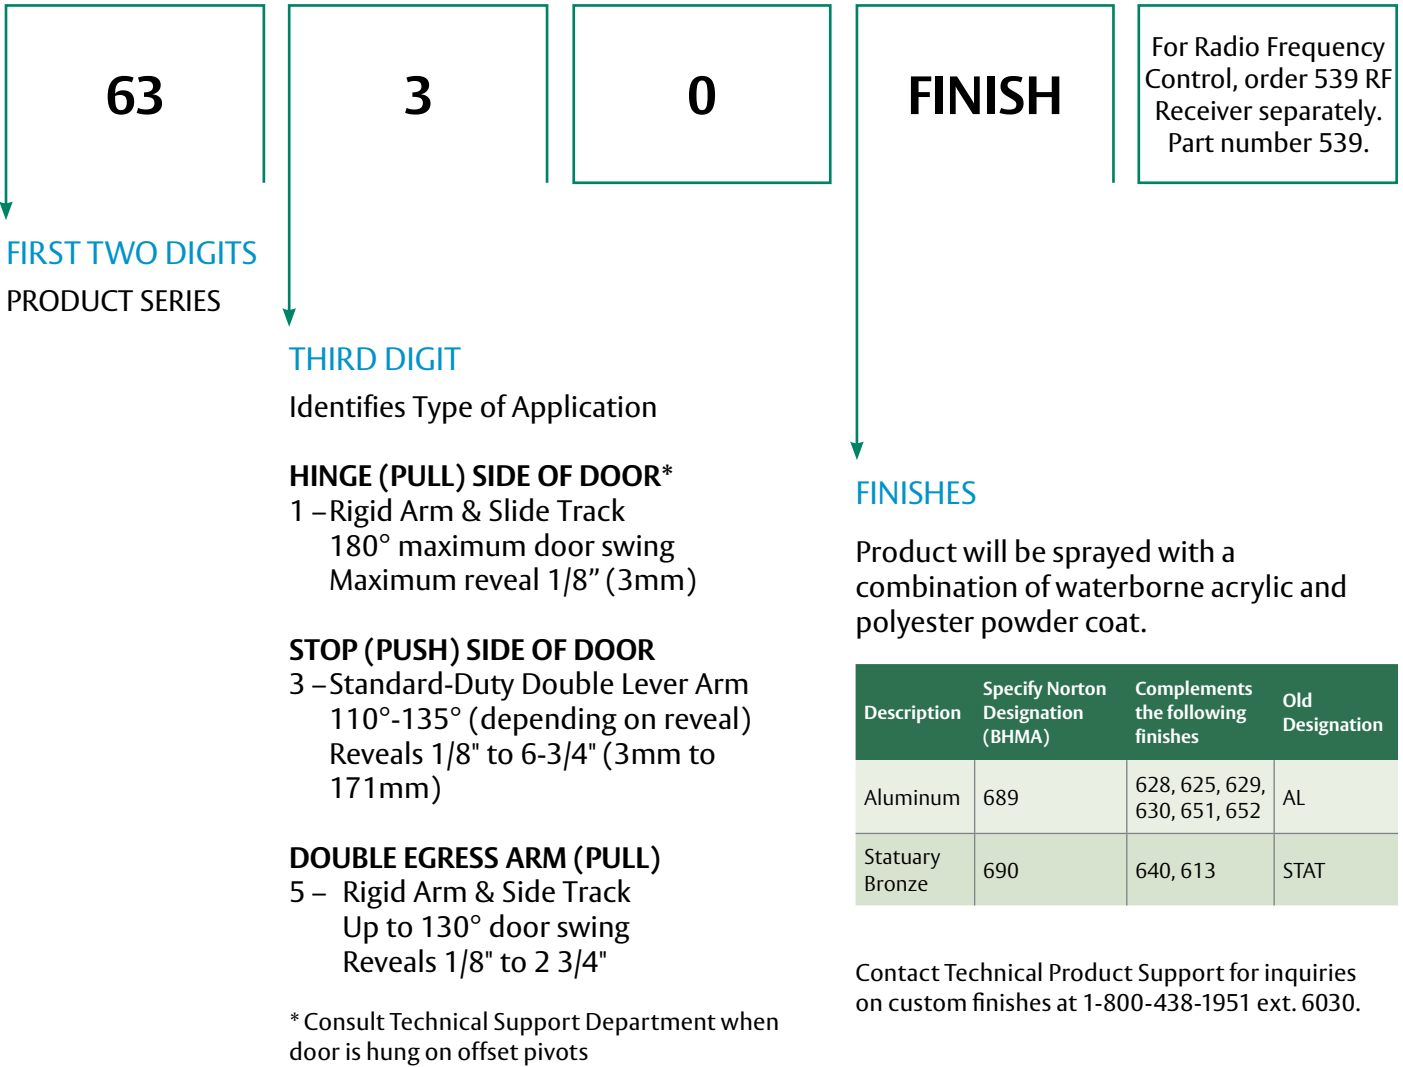

Entrance Doors

- » Schools
- » Theaters
- » Banks
- » Large office buildings
- » Large department stores
- » Stores
- » Hospitals

HOW TO ORDER

Note: All transmitters (door switches or key fob) must be ordered separately.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience

Since 1880, Norton door controls have been an integral part of schools, hospitals and businesses around the globe. When you need products and people that perform at the highest level, rely on Norton – From Open to Close.
