Petroleum based liquid lubricants should only be used in cylinders in harsh or corrosive environments and should not be missed with dry lubricants.

Warranty for Cylinders Field Combined:

1. Keys shall be cut to the SARGENT® key biting specifications required for the particular keyway and depth system.
2. All pin lengths shall be selected according to prevailing factory standards.
3. Original SARGENT® cylinder components, including pin tumblers and key blanks, shall be used.
4. We reserve the right to void the warranty if we deem that a malfunction is a result of non-original components which do not conform to SARGENT® standards.

Keying Systems:

All bittings shall be originated or authorized by the SARGENT® Key Systems Department to be compatible with one another in a specific type of cylinder (conventional, security, high security, interchangeable core, removable core) and within a particular keying system.

SARGENT® will not pay for the cost of repair performed other than in accordance with this warranty.
