

## DORMA C800 SERIES LOCKSETS

LC Lever with E Rose

#### Applications

DORMA's heavy duty Grade 1 cylindrical locksets are especially suited for educational, health care, institutional, commercial and industrial applications. The broad range of functions and designs fulfill all cylindrical lock applications.

#### Certifications

- ANSI/BHMA A156.2 Grade 1 certified.
- UL and CUL listed.
- Meets ANSI A117.1 C and ADA for barrier-free accessibility.
- CSFM approved.

#### Features

- All DORMA C800 Series locks feature advanced design concepts for extreme reliability and are manufactured with the finest materials for exceptional durability.
- To ensure exceptionally smooth operation, the C800 Series locks with lever trim incorporate a cast stainless steel retractor combined with roller bearings. This design provides both extremely high strength and an extended service life for the lock mechanism.

- DORMA C800 Series locksets are easy to install in both wood and hollow metal doors with ANSI/BHMA Standard A156.115 preparations for cylindrical locks.
- All C800 Series lever locks are through-bolted for additional strength and reliability.
- All C800 Series operating lever trim features a specially. designed freewheeling function to protect the lock from damage caused by excessive torque applied to the lever handles. When locked, the outside lever handle will move freely through a 60° arc without operating the latch bolt. This free movement minimizes the opportunity for damage to the lock mechanism.
- All C800 Series lever handle locks include a special, highstrength spring and positive stop to eliminate unsightly sagging levers.
- All C800 Series lever locks are easily adjustable to accommodate doors from 1-3/4"-2-1/4" thick without spacers (1-3/8"-1-3/4" with spacers 660005). Consult the factory for other thicknesses.
- C800 Series knob locks will accommodate doors from 1-3/8"-2" thick without spacers or special tools.

 All C800 Series locks are available in the following backsets: 2-3/4" (70 mm) standard, 2-3/8" (60 mm), 3-3/4" (95 mm), and 5" (127 mm)

#### Cylinders and Keying

- Unless otherwise specified, cylinders will be provided in DORMA standard keyway with two (2) nickel silver keys.
- Optional patented key system available.
- Refer to separate DORMA Price List for full details and options such as master keying, retrofit cylinders and keyways, and small format and full size interchangeable cores.

#### Finishes

- Brass: 605 PVD (Bright), 606 PVD (Satin) or 605\* (Bright, Clear Coated)
- Bronze: 612 PVD (Satin) or 613 PVD (Dark Oxidized Satin)
- Nickel: 619 PVD (Satin)
- Chrome: 625 (Bright) or 626 (Satin)
- Stainless: 630\* (Satin)

NOTE: Consult factory for finishes not shown.

\*Available on knob locksets only.

#### **Exposed Trim**

Brass or stainless steel—levers are pressure cast zinc, plated to match finish symbols.

Antimicrobial Protected Coating Specify AM

#### **Special Finish Notes**

ANSI/BHMA A156.18 standards describe 613 Dark Oxidized Satin Bronze finish as a category B finish. B category finishes, "do not match from one alloy or form of material to the next and from one manufacturer to the next." The 613 finish may vary between manufacturers' products and models.

In some instances, for customer convenience, the most appropriate BHMA finish symbols are used to indicate similarity of appearance, regardless of base metal or finishing process. Finishes of latches, strikes, cylinders/cores, and visible mounting screws, though similar in appearance, may differ from the finish of the trim. Finish designations in the 600 numbers are the BHMA (Builders Hardware Manufacturers Association) industry standard.

#### **Security Screws**

Torx $^{\otimes}$  tamper-resistant screws are available for all exposed screws. Specify **TX**.

#### Warranty

For details, refer to **DORMA** Limited Warranty on our website at go.dorma.com/terms.

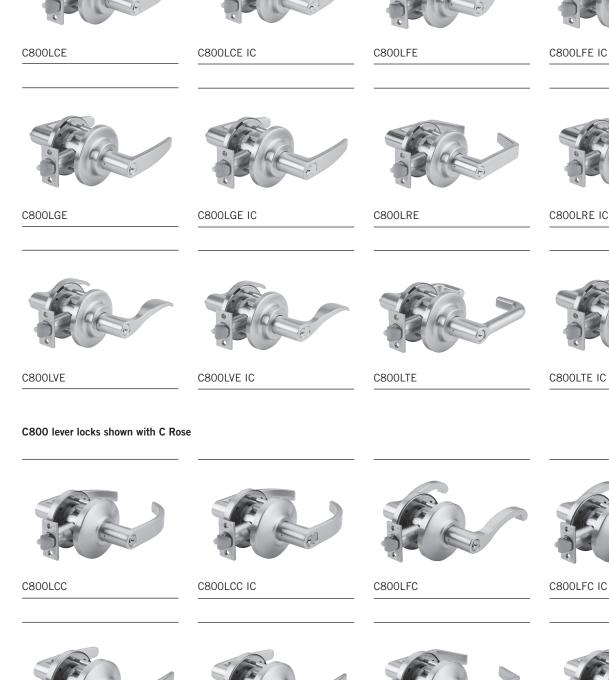

DORMA USA quality and environmental management systems in Reamstown, PA and Steeleville, IL are certified to ISO 9001:2008 and ISO 14001:2004.
